

QEEE Application v12.0.1 is available for download [here](http://qeee.in/ftp/qeee_v12.0.1.zip). (http://qeee.in/ftp/qeee_v12.0.1.zip)

To download this software please use the below credentials:

Software Installation and Setup Steps:

- Click on the link [QEEE Application V12.0.1](#) and use the below credentials to save the file to `/tmp` on the QEEE institute server. The downloaded file is in name of `qeee_v12.0.1.zip`

Username: `user_qeee`

Password: `Software@Qeee`

- `unzip qeee_v12.0.1.zip` – Unzip the downloaded file which results in creating `install_script` directory.
- `sudo su` - Change the user mode to root
- `cd /tmp/install_script` - Change to directory `install_script`
- `chmod 777 qeeeins.sh` – Change the execute mode for `qeeeins.sh`
- `./qeeeins.sh` - Run installation script `qeeeins.sh`
- Run `/usr/local/bin/qeeconfig.sh` to set
 - IP address and domain name
 - Institute code and passcode as given in registration mail
 - Admin's email id
- On successful authentication of Institute code and passcode, **the admin's default password is set to the passcode**
- Reboot the server

Please follow the below steps for registration:

1. Open the QEEE Institute URL in browser
2. Login as **Admin** with given passcode in the registration mail.
3. Click on **Registration->Institute** and enter the required details. On successful submission, **“QEEE Testing”** course will be available in your server. Classroom and infrastructure testing can be done with **“QEEE Testing”**.
4. The list of courses for registration is listed under **Registration->Courses**. This registration to the courses can be done by **both Admin and Coordinator** logins. For each registered course, a **refundable deposit** is to be paid which will be added to your cart. Once the registration is complete, the payment can be made by clicking on **Cart->Checkout**.
5. The registered courses will be available in your server after the classroom testing is completed and **payment successful**. Students and Local Faculty can then be enrolled to the topics.
6. Keep your server powered ON and network reachable 24X7 to receive timely updates.
7. Please refer to manuals/contact webappsupport@edureform.iitm.ac.in for any further queries.
